

# Our Ocean Conference Action Plan

- **Stem the increase in ocean acidification by reducing carbon emissions**, including in the context of a new agreement that will be applicable to all under the UN Framework Convention on Climate Change.
- **Create worldwide capability to monitor ocean acidification.** Achieve worldwide coverage of the Global Ocean Acidification Observing Network and significantly increase the number of trained monitors and managers by 2020.

# DOS Efforts

1. Enhance scientific capacity to monitor and understand
2. Increase monitoring coverage
3. Promote and support global efforts to coordinate and share data
4. Raise awareness in foreign policy venues and with general public
